DEPENDING MODEL

What air do you want to breathe inside?

Nuestro nuevo purificador gracias a su triple filtro anti bacterias, ionizador de partículas y con el sistema luz UVC en su interior, elimina virus y bacterias con una eficacia del 99,95%. Space Plus incorpora un medidor de CO2 para saber cuándo el nivel es demasiado alto.

25 to
107m²
application area

UVC

Purifies and eliminates viruses and bacteria

Space Plus has UVC light inside, which eliminates viruses and bacteria with an efficiency of 99.95%

CO2 meter

The purifier monitors the air quality, indicating the amount of CO2 concentrated in the environment.

Improves quality of life

Space plus improves oxygenation and respiration, reduces allergies, helps improve rest and promotes stress reduction.

WiFi

From the HTW app, Space Plus allows you to remotely control the purifier, optimizing its efficiency and use.

Filters for total disinfection

Its multifilters retain particles such as animal hair, cuticles and dust, pollen or allergens. They also eliminate bad odors and tobacco smoke.

Air quality indicator

Space Plus analyzes the environment and identifies the air quality with a light indicator that changes color depending on the result obtained.

Silent night mode

Thanks to the night mode, it allows you to sleep peacefully thanks to the noise level below 21dB.

Filter change notice

After 1600 hours of operation, the UVC button will flash indicating that the purifier needs a filter change.
